SILENT GREEN

silent green is an event venue and independent project that has found a unique home in Berlin in the historic premises of the former crematorium in Wedding.

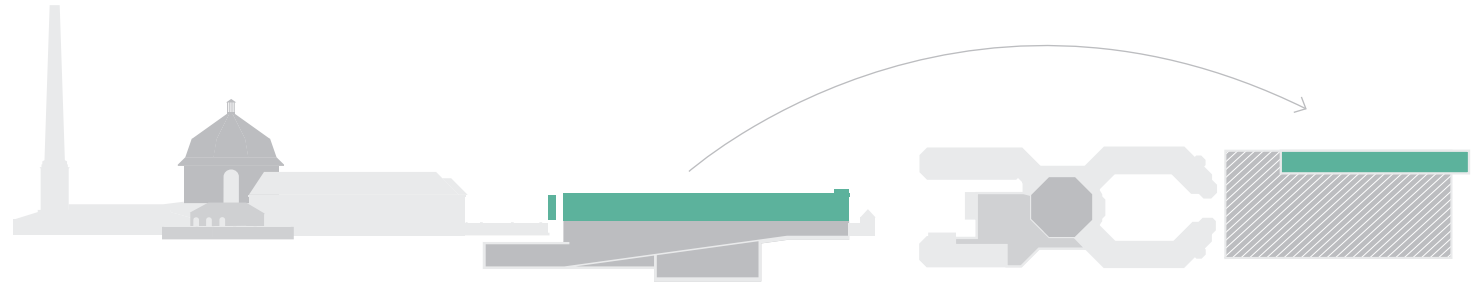

As an independent venue and interdisciplinary production site in the field of art and culture, silent green also rents out its event spaces to outside projects. This is meant to create a space of overarching encounter and participation, where networks and communication spaces can form – between practice and theory, research and application, production and presentation.

Our in-house gastronomy, MARS I Café & Bar, provides a respite from the urban hustle and bustle and a place for renters, audience, and locals to come together.

silent green is a matter close to our hearts. All proceeds therefore go directly back into maintaining the place and producing artistic and cultural projects. The goal is to build a sustainable creative infrastructure in Wedding, firmly anchored in the neighbourhood, and at the same time a cultural attraction beyond Berlin and out into the world.

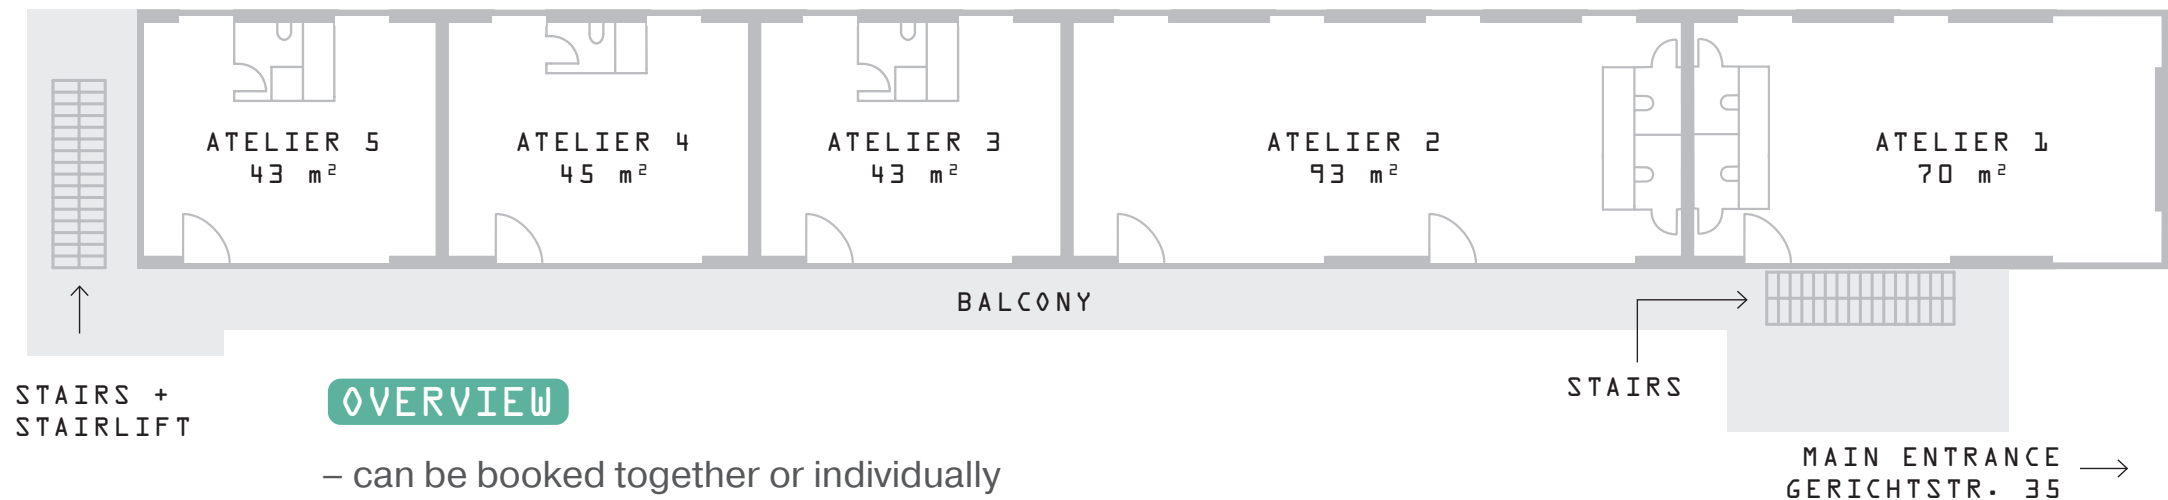

ATELIER 1-5

The former driving entrance to the concrete hall was tunnelled over by new construction, providing 300 m² of space for 5 ateliers. The bright, open rooms are connected by a balcony and can thus be rented either individually or in combination.
